## Search by Model

You can search for vehicles by selecting the maker and model name.

1 On the search screen, click the “Search” tab.

2 On the search screen, click the “By Models” tab.

3 After selecting the auction venue, click “Next.”

\*Multiple venues can be selected.

4 A list of manufacturers will be displayed. Select the manufacturer you want to search.

\*Multiple manufacturers can be selected.

5 From the vehicle name list, click the desired model. Clicking the “A-Z / 0-9” tabs allows you to filter by alphabetical or numeric order.

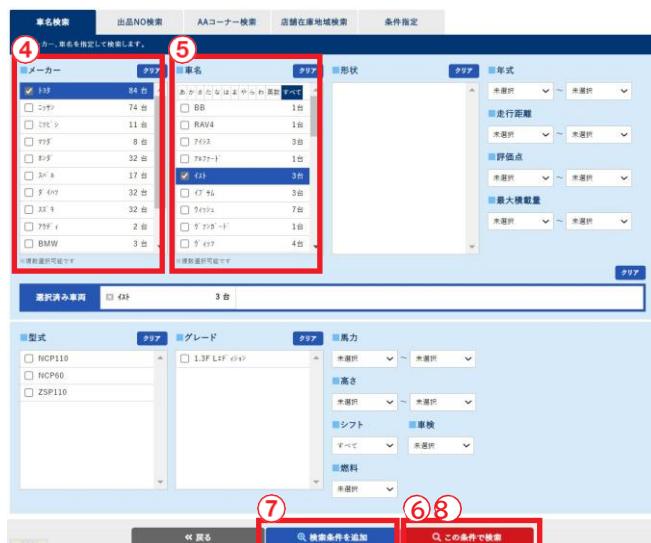

\*Multiple vehicle names can be selected.

6 After selecting the vehicle name(s), click “Search with this Condition.” To reselect, click the “x” button next to the selected vehicle name.

7 If you select only one vehicle name and click “Add new search Criteria,” you can narrow down the results by model type, grade, and other details.

8 After setting the filtering conditions, click “Search with this Condition.”

9 Vehicles that match the selected conditions will be displayed in a list.

4 A list of manufacturers will be displayed. Select the manufacturer you want to search.

## Search by Entry Number

This function allows you to search for a vehicle by specifying the entry number when it is already known.

The screenshot shows the AI-Net auction search interface. A red box highlights the 'Search' button in the top navigation bar. Another red box highlights the 'By Entry No' tab in the search dropdown menu. A third red box highlights the 'Entry No Search' input field where an entry number is being typed. A fourth red box highlights the 'Search with this Condition' button at the bottom of the search form.

The screenshot shows the search results list. A red box highlights the 'Entry No' column header. The table lists three vehicles, each with a thumbnail, entry number, model, and other details. The 'Entry No' column for the first vehicle shows '89937' and '1.3F 1.5F 1.6i'.

## Search Store Inventory by Area

AI-NET members can search for vehicles stored at affiliated partner stores by specifying the vehicle location area.

1 From the main menu, click “Search.”

2 On the search screen, click the “By Area” tab.

3 Select the vehicle category and inventory source(s).

4 Specify the desired area.

5 After selecting the corner, click “Search with this Condition.”

6 Vehicles that match the specified conditions will be displayed in a list.

The screenshot shows a table of search results with 6 numbered steps. Step 6 is highlighted with a red box. The table has columns for vehicle details like model, color, and price, and a 'Search' button for each row.

## Search by Filters

You can search by specifying various filters such as body type and year range.

1. Click the "Search" button in the main menu.

2. Click the "条件指定" (Filter Specification) tab.

3. Click the "次へ" (Next) button to proceed to the filter specification screen.

4. Click the "検索条件" (Search Conditions) tab.

5. Click the "Q, この条件で検索" (Search with these filters) button to perform the search.

1 From the main menu, click “Search.”

2 On the search screen, click the “By Filters” tab.

3 After selecting the auction event and venue, click “Next.”

\*Multiple venues can be selected.

4 Enter the desired search filters.

Vehicle Name / Grade / Model	Specify the vehicle name, grade, or model.
Body Type	Specify the body type.
Vehicle ID / Entry No.	Enter the vehicle number.
Year	Enter the year range.
Engine Displacement	Enter the engine displacement.
Mileage	Enter the mileage.
Color	Select the color.
Transmission	Select the transmission type.
Condition Rating	Select the evaluation rating.
Save Filters	You can save the specified filter settings.
Number of Matching Vehicles	You can check the number of vehicles that match the specified filters.

5 After entering the filters, click “Search with These Filters.”

6 Vehicles that match the specified conditions will be displayed in a list.

6. The search results list displays vehicles matching the specified filters. The list includes columns for vehicle details such as model, year, engine displacement, transmission, and condition rating.
